DETAILED ACTION

Election/Restrictions

1. The restriction mailed March 13, 2008 has been withdrawn and a new restriction has been issued to include all of the claims filed in the preliminary amendment.

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-14 and 26-35, drawn to a device for detecting and locating objects and a method for detecting and locating objects.

Group II, claim(s) 15-18, drawn to a method for controlling a restraint system in a vehicle.

Group III, claim(s) 19-22, drawn to a method for avoiding accidents.

Group IV, claim(s) 23, drawn to a restraint system of a vehicle.

Group V, claim(s) 24, drawn to a pre-crash system of a vehicle.

Group VI, claim(s) 25, drawn to an anti-theft warning system.

3. The inventions listed as Groups I do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: they include structural details that are not related to each other.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
